OFFICIALS MORE HOPEFUL. This evening the administration officials were more hopeful over the situation in China as a result of the dispatches which have come in the last few days, and more particularly the European advices of tonight asserting that the ministers are safe. If an answer is received to the second telegram, which has been sent through the Chinese minister here to Mr. Conger, and that answer should bear undoubted evidence of genuineness, the situation will be materially improved and the government, with the additional information which Mr. Conger may transmit, will be able to move intelligently toward the rescue of the beleaguered foreigners. It seems probable from the Brussels dispatch that the note of Mr. Hay to the United States representatives abroad directing them to urge upon the government to which they are accredited the opening of communication with Peking is bearing fruit, and the officials hope that united action by the powers generally on this matter may be taken.

Dr. Hill, the first assistant secretary of state, is acting secretary in the absence of Mr. Hay, and he said to-night that there were no fresh developments in the situation, nor had any additional information other than that made public to-day been received here. He expressed his satisfaction over the reiterated statements coming from abroad that the legationers in Peking were still alive.

Mr. Wu, the Chinese minister, is busily engaged in preparing for the transmission to his government the reply of the secretary of state to China requesting the United States to mediate in the present troubles between the Chinese empire and the powers. He declined to say to-night whether the reply was satisfactory to him or would be to his government, nor would he indicate in any way what its nature was. There is considerable work to be done on the reply before it can be sent to China, as it has to be reduced to cipher. In addition to this the minister will prepare a communication to accompany what the President has to say. He expects, however, to have the document ready for transmis-

sion early to-morrow. The minister expressed his satisfaction over the foreign news of to-night asserting that the ministers in Peking were safe, and in connection with the dispatches from London recalled that, according to one of the imperial decrees, the Chinese government had decided, as a measure of precaution, to request them to retire temporarily to Tien-Tsin. After the murder of Baron Von Ketteler, however, this project

## "YUAN" INSTEAD OF "TUAN."

### Telegraphic Error in the Dispatch from Consul General Goodnow.

WASHINGTON, July 23 .- The State Department to-day made public the following: "The State Department has received a dispatch from Mr. Goodnow, the consul general at Shanghai, dated to-day, saying that Prince Tuan wires that an officer of the Tsung Li Yamen saw all the ministers on the 18th, that none was injured and that no attack was at that time being made. He does not say to whom the dispatch of Prince Tuan was addressed, and it is to a certain extent at variance with the dispatch of Mr. Conger of that date, describing the legation as being under fire at that time."

After mature consideration the officials of the State Department have come to the conclusion that by a telegraphic error the name of the informant of Consul General Goodnow has been turned into "Tuan" from "Yuan." The latter is the famous Yuan Shih Kat, the governor of the province of Shan-Tung. He always has maintained an attitude of neutrality, and even has leaned toward positive friendship for the foreigners. He has from the first diand telegraphs at Shanghai, the distinction of being the only means of communication between Peking and the outside world. Therefore it is extremely probable he has served in the same capacity in this instance. On the other hand, if this disgrossly misrepresented as to his anti-for- existing relations. Grant, Barry and Wilson Will Prob-

ably All Be Sent to China. WASHINGTON, July 23.-Although the orders have not been issued it is pretty generally understood in military circles that Brigadier General Frederick D. Grant, United States Volunteers, and Brigadien General Thomas H. Barry, have been selected for assignment to duty with the military division in China. Their assignment, together with that of Brigadier General James H. Wilson, United States Volunteers, already announced, will give Major General A. R. Chaffee, commanderin-chief, three general officers of recognized ability to assist him in the management of military operations in China. General Grant is now on duty with the troops in the Philippines, being stationed near Manila. General Barry is a passenger on the transport Sumner, which left San Francisco on the 17th inst., for Nagasaki. The orders under which he sailed reat Manila for duty as his chief of staff. It is now proposed, however, to change his orders so as to assign him temporarily, at

least, to duty with troops in China. He undoubtedly will receive orders to that effect on his arrival at Nagasaki, and will continue with the troops on that vessel to Taku, China. General James H. Wilson the senior brigade commander, now a Matanzas, Cuba, is expected to start on his long journey to the Orient immediately. He will make the trip by way of New York and San Francisco and will not arrive on Chinese soil until about a month later than the other brigade commanders.

The transport Grant is expected to arrive at Nagasaki early this week, possibly tomorrow or next day. She left San Francisco on the 1st inst., with Major General inally intended to transship these troops at Nagasaki to other vessels of the transport service, by which they were to be taken direct to Taku and the Grant was to have continued on to Manila. The urgent | the world." need of these reinforcements in China has necessitated a change in the plans, and orders have gone forward for the Grant to proceed direct from Nagasaki to Taku with the utmost speed, stopping only long enough to take on coal. The officials of the War Department calculate that Gen. Chaffee and his reinforcements will join Lieutenant Colonel Coolidge and the Ninth Infantry at Tien-Tsin before the end of the month. It also is expected that the troops from Manila, consisting of two a battery of artillery will arrive at Taku to-morrow or Wednesday at the latest. The arrival of these troops will give Gen. Chaffee an effective fighting force, including marines, already there, of about 4,000

One of the first duties of General Chaffee on arriving at the seat of the trouble in China will be to report to the War Department the prevailing conditions and his views as to the best course of military procedure for the rescue of the beleaguered missionaries in Peking. It is said that the military plans of the administration will be governed to a considerable extent by General Chaffee's report of the situation and the possibility of a successful movement against Peking with the forces at his command, acting in conjunction with the forces of the allied powers.

# TEXT OF CHINESE EDICT.

### Translation of the Decree Issued by the Government on July 17.

WASHINGTON, July 23-The State Department makes public the text of an edict delivered to-day by Minister Wu to Secretary Hay. This is the edict referred to by United States Consul Fowler, of Che-Foo, in his message received here yesterday. It is headed: "An imperial edict is sued on the first day of the sixth moon vided with Sheng, the director of posts (July 17). Transmitted by the viceroy, Liu Yih on the 20th of July and received by Minister Wu on the 21st day of July at 7 o'clock," The edict follows:

A significant statement in the above edict is noted in that passage which directs an investigation of all claims, "except those arising directly from the said (attack on Tien-Tsin), with a view to their | Paul, the recent owner, when he purchased ultimate settlement." This appears to make plain, not only that the Chinese government will settle claims for actual losses. but that it has now formall; decreed an exception of these claims arising directly from the attack on Tien-Tsin. He advanced the theory that the alarm recently adopted to rescue the Chinese inhabitants from avengers of the iplomats supposed to be slain. When the first rush of the Celestials was made the policemen drew their revolvers and held the crowd at bay, informing them at the same time of their mission. DETROIT, Mich., July 23.-Baron Paul Merling, German consul general to Peking, China, and an intimate friend of the late German minister, Baron Von Ketteler, passed through Detroit to-day en route to New York, whence he will sail on Wednesday for home. Just before leaving Peking he had a long conversation with Minister Conger, who, he said, was very sure that the uprising would not amount to much. "I cannot believe." said Baron massacred. (CONCLUDED FROM FIRST PAGE.) government in Peking is as much in doubt as ever. The German government considers it unlikely that an advance to Peking will be feasible before September. The government is gratified to find that the correspondence published on the subject proves that Japan honestly intends to co-operate with the powers. On the other hand, considerable disappointment is expressed in official circles at the tenor of battalions of the Fourteenth Infantry and the reports from Washington regarding America's policy. On this point the Berliner Tageblatt with evident inspiration says: "The Chinese have then already succeeded in creating differences of opinion among the powers. The government of the inited States seems determined thus early to occupy a separate standpoint with the concert of powers. As at Taku, the American admiral would not join, so now President McKinley apparently means to oppose the joint action of the powers aimed at the re-establishment of order in China, all of which proves that the Chinese are indeed the most cunning diplomatists in world."

While most of the papers point out the impossibility of an advance upon Peking because of the smallness of the allied forces as against a greatly superior forcebecause of the disastrous effect which is possible allied defeat would have upon the whole of China and also because of the rainy season-the National Zeitung contends that there is but one way to ascertain the truth or untruth of the Chinese claim that the legations are safe, namely an immediate advance upon Peking. The correspondent of the Associated Press learns authoritatively that the question of

the chief command of both land and sea still forms the subject of the diplomatic negotiations, and that absolutely nothing has yet been settled in that matter. The semi-official Berliner Post points out that Germany must send a number of warships to the Yang-Tse Klang to protect commercial German interests in Shanghai and Han-Kow, adding: "If these interests are jeopardized by the Chinese, our naval guns must talk. Every attempt to block navigation there by mines must be prevented from the start. Free navigation upon the Yang-Tse Kiang is of the greatest importance.

### "Who Has Authority?" the Question Agitating Terre Haute Police.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., July 23 .- The contempt case in which Chief of Police Hyland was cited to appear in the Superior Court this morning to show cause why he should not be punished for contempt in violating the restraining order of the court against interfering with the city stables in which the horses of the engineer's and street commissioner's department were kept, has resulted in a test case to decide whether the police commissioners, appointed by the Governor, or the Board of Public Works, appointed by the mayor, have charge of

the stables. The question of paramount authority is between the metropolitan police law and the special charter act for the city of Terre Haute. The police commissioners claim that their law gives them authority over the property, whereas the mayor's board claims that the special charter act bestows on the board the care and responsibility for all property owned by the city. The question arose over the action of the police in turning the city horses out citing the chief to appear was discharged was then filed, and on this hearing was the States. head this afternoon.

Special to the Indianapolis Journal. WINONA LAKE, Ind., July 23.-It was announced to-day that Dr. J. Wilbur Chapman, of New York, is the donor of the Ministers' Home, the large building now in course of construction for the use of all ministers receiving salaries of \$1,000 or less. The gift was announced several days ago, but the name of the donor was withheld The contract was let at that time, and the work is now well under way. Dr. Chapman is the well-known evangelist and former pastor of John Wannamaker's church in Philadelphia. He has been director of the Winona Bible Conference ever since its organization several years ago. Dr. Chapman has notified the management of the assembly that he will give the entire proceeds of the sale of his book, "The Life of Dwight C. Moody," to the assembly for the maintenance of the home. Sixty-seven thousand copies of the book already have been sold, and if the sale reaches 100,000 by Sept. 1 the publishers, Winston & Co. of Philadelphia, will give an additional \$1,000, besides the royalty to be paid to the assembly on every copy sold in the States of Indiana, Ohio, Michigan, Illinois and Kentucky. Dr. Chapman is the official biographer of the late Dr. Moody, and the book undoubtedly will have a large sale. The building given by Dr. Chapman will be of three stories, and will contain over fifty large rooms. A broad plazza will extend around it, and the structure will be one of the most beautiful in the park. It is just south of the Marshall Home, which will be for the use of home missionaries only. The Ministers' Home will be completed in time for dedication at the opening of the Winona Bible Conference about the middle of August. Senator Charles W. Fairbanks, of Indiana spent Sunday here. He was accompanied by Messrs. J. W. Wishard and John G. Wishard, of Indianapolis, and came merely on a pleasure trip. With the exception of receiving a few callers from

It may has written a letter to Captain Shoemaker, of the revenue cutter service, explaining affairs at St. Michael's. He says that the smallpox epidemic at Nome has made it necessary for the safety of St. Michael's and the river settlements to establish a quarantine at St. Michael's. The revenue cutter officials joined with the officials of the army and they have overhauled vessels filled with refugees from Nome and compelled them to go to the quarantine station at Egg island. Speaking of Cape Nome, Captain Cantwell says: "The situation as regards diseases at Nome is a grave one and it is hoped that the true state of affairs will be known lert, a bookkeeper for a prominent abstract in the States in time to prevent more people from crowding into that camp, which is already in a condition of congestion that will have to be seen to be appreclated. The lack of sanitation even in the crudest form has rendered the place a quagmire of disease-breeding filth, and the wild struggle constantly going on for every foot of space renders it impossible to get anything done in the way of cleaning up the town. It will be a merciful providence if there is not a plague started there be-fore the end of the summer and if the smallpox cannot be subdued before the cold sets in nothing on earth can prevent its spreading to all adjacent camps. Marriage is said to be an equal partnership. But the kind of a one-sided

saying, "A double her husband's joys and his sorrows." That's what is expected of a wife, and the won-

der of the world is that she comes so closely to expectation. For as a rule from the time of marriage onward, her body is daily drained of strength and her mind daily burdened by cares. She lies on the

trouble, and gets up and puts on a smil-ing face to meet her husband. Marriage can only be an equal partner-ship when the drains and strains of married life of the woman can be replaced by the perfect health of the delicate womanly organs.
